Subject: RE: ND DEQ WQS revisions - suggested language for footnotes related to selenium
Attachments: ND WQS 2020_Complete_Rule_Ammendments_Strikeout_Color_NEW_EPA edits v4_ND edits.docx

To help us visualize ND's edits in context, I added them to footnote 4 and 17 in the version we sent (attached).

Mario

Subject: FW: ND DEQ WQS revisions - suggested language for footnotes related to selenium

Hi Mario, Karl Rockeman from ND DEQ recommends the edits in red below to the language in the footnotes.

Thanks. I hope everyone's weekend was great. Talk with you soon.
Holly

Dear Holly:

How about replacing (EPA with 40CFR131)? See below.

Pete

Replace
U.S. EPA-approved site-specific water column criterion element
With
Site specific water column criterion element established under the provisions of 40CFR131

And replace
, once they are duly adopted, and approved by U.S. EPA
With
once duly established under the provisions of 40 CFR 131

Karl Rockeman

Dear Holly:

Initial impression "this is good". I will run it by Karl.

Thanks for all your help.

Pete

Hi Pete, I hope all is well!

I know your plate is full so I'll be brief. Per our conversation on Monday, attached for your review are EPA's recommended revisions to footnote 4 in Table 1 and footnote 17 in Table 2. Please let me know if you have any comments or questions.

Also, I'm putting together a summary of the discussion on Monday with NDDEQ and Office of Water. I'll send it to you once I'm done to make sure I accurately captured the discussion. I intended to send it today, but work keeps getting in the way LOL...

Thanks so much! Talk with you soon.
